

The third generation of OfficePoint has arrived

The Document Management System You Rely On,
Now Better Than Ever

contentservices.asee.io

Introducing the new version of OfficePoint

OfficePoint V3 redefines content management by offering a **platform-independent solution** that is no longer reliant on SharePoint and is **cloud-ready**.

This upgrade eliminates unnecessary licensing costs and simplifies setup, providing multiple on-premise and cloud Document Stores supported out of the box.

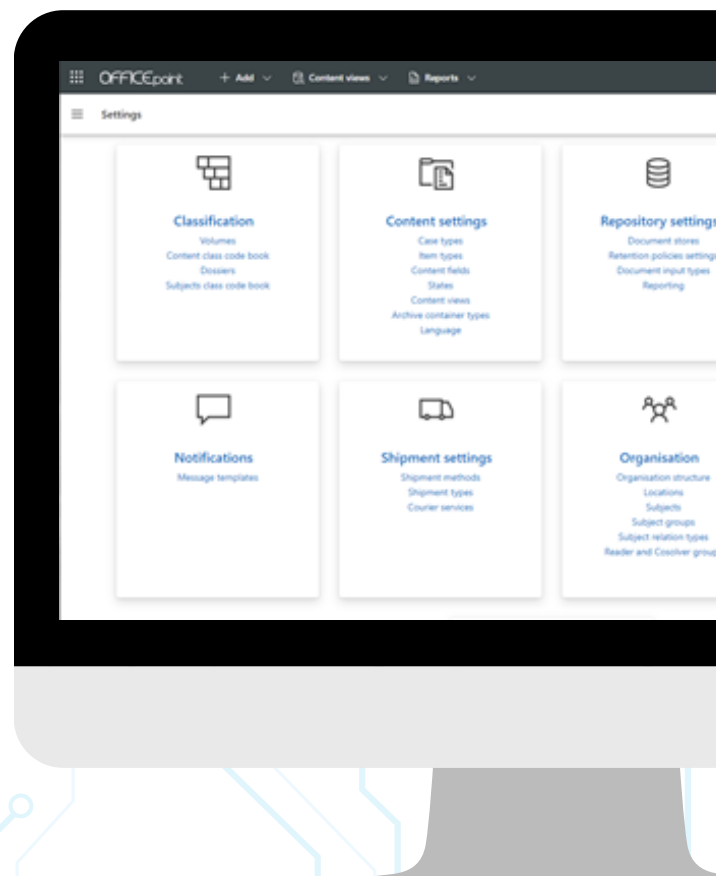

Empower your business with a modern, efficient, and platform independent document management system.

Features you will love:

- **Standalone Application:** Run OfficePoint seamlessly without relying on SharePoint Server, simplifying deployment and reducing infrastructure dependencies.
- **Enhanced User Experience:** Experience a sleek, modern interface powered by a React App and Microsoft Fluent UI for intuitive navigation and efficient document management.
- **Comprehensive Document Store Options:** Supports both on-premises and cloud-based document stores. Fully compatible with SharePoint Online and SharePoint Subscription Edition to enable seamless collaboration and archiving.
- **Scalable and Cloud-Ready Architecture:** Optimized backend performance and logic enhancements enable effortless scalability and hybrid work support, all while leveraging cloud capabilities.
- **Extendable and Flexible Integration:** Easily integrate with third-party solutions via out-of-the-box connectors and development interfaces, ensuring OfficePoint adapts to your business needs.

Tailor Your Searches to Your Needs:

New OfficePoint now includes the ability to define and customize your own searches for enhanced flexibility.

contentservices.asee.io

Key benefits:

- ✓ Reduced licensing expenses and streamlined the setup on-premise or in cloud.
- ✓ Intuitive User Interface: Navigate effortlessly with a refreshed, modern design.
- ✓ Flexible Document Storage: Choose between local servers or cloud solutions to suit your business setup.

Streamlined **Administration and Configuration**

Take control effortlessly with no need for separate server-only settings. Adjust permissions with precision using granular role configurations, and access all essential settings faster and more conveniently, saving valuable time.

Your Platform, **Your Rules**

The new search features are faster, easier to customize, offer more customization options, allow users to create their own search groups, and include group actions for improved efficiency.

You can define your own search parameters, including the type of content (such as cases, acts, or shipments), search fields and rules, displayed columns, export/import functionality, and create an unlimited number of custom searches, all while easily integrating with other related tools.

Effortless **Integration**

Connect OfficePoint seamlessly with your existing tools and systems. Whether it's related software or third-party tools, enjoy smooth integration that enhances your existing processes without disruptions.

Archive Like **a Pro**

The system offers easier configuration of container types, better visual representation, the ability to calculate occupancy of your shelves, search for a specific box, and a fast preview of the box content.

Help When You **Need It**

Stuck? No problem. Access detailed online help directly within the platform, guiding you step by step. Get answers quickly without interrupting your workflow.

ASEE stands as one of Europe's leading IT companies specializing in the development and deployment of proprietary software solutions. With a diverse portfolio spanning various industries, including finance, telecommunications, public government, and payment systems, **ASEE** is at the forefront of innovation.

With a global presence in 23 countries and a dedicated team of over 3,800 professionals, ASEE Group is committed to delivering cutting-edge technology solutions to meet the unique needs of its clients across industries.
